WASHINGTON, D. C.

NOTARY PUBLIC.
EXAMINER IN CHANCERY.

May 21, 1907.

Dr. Wilbur L. Davidson,
#1419 F Street, N. W.
City.

Dear Sir:

In reference to the right of way in favor of our client W. O. Hazard across the lands of the American University concerning which we wrote the University some months ago, and had reply from you, we have to state that our client and his brother are now occupying the premises owned by them to the west of the American University grounds; that they are having great difficulty, both themselves and their friends in crossing the lands of the American University over the right of way reserved in favor of their land in the deeds under which the University acquired title to this property.

Mr. Hazard states that the American University or its Superintendent has erected a gate across the right of way and that he and his friends have great difficulty in crossing this right of way.

This is to give you notice that unless the said gate is removed and the right of way put in condition for proper usage for Mr. Hazard and his friends and visitors that he will take steps to do away with all obstruction in his right of way and if, necessary, will break down said gate.

We trust you will give immediate orders to your superintendent on the grounds so that there will be no more interference with Mr. Hazard's right of access to his property across this right of way and that you will have the said road put in condition for comfortable travel.

Very truly yours,

Barnard & Johnson
Atty for W. O. Hazard
