

C. C. Glover

Office of Riggs & Co.

Washington, D. C. Office ^{to} of "1892"

Rev. Charles M. Baldwin

Secy. 1425 My Ave.

City

Dear Sir:-

Your letter of today to Mr. Glover was received, just as he was leaving the Bank, to keep an engagement; and being, consequently, unable to write himself, he has requested me to do so for him.

He says that the proposition he submitted to you, with regard to the extension of Massachusetts Avenue, though made verbally, was so clear and distinct that he does not apprehend you will have any difficulty in communicating it to Bishop Hubst.

The proposition which he makes is only in contemplation that, if agreed upon, it is to be carried out within a reasonable length of time. He is unwilling to make a definite proposition that might

Remain over for an indefinite length
of time, and be considered as bidding
at some future date when the values
of land, and other considerations, may
have materially changed.

Very Truly Yrs

Arthur Price
