OFFICE OF MEDICAL DEPARTMENT, FORT WAYNE, IND.

DR. C. B. STEMEN, Dean of the Fort Wayne College of Medicine, and Editor of the Fort Wayne Journal of Medical Sciences, is authorized to develop and organize the Medical Department of the American University at Washington, D. C., and he is hereby commended to the esteem and confidence of all friends of this important undertaking

JOHN F. HURST Chancellor.

Fort Wayne, Ind.,

Nov 2nd 1895

Ans. 54
S. H. B.
Rev. S. L. Beiler D.D.,
Vice Chancellor, Am. University

My dear Bro: I just returned from Toledo, Ohio where I met Bishop Hurst, had a pleasant interview with him, and attended the reception tendered the Board of Bishops at St. Paul M. E. Church last evening.

I will not be able to prepare a general plan for the Medical Department for the December number of "Courier" by the 20th. I think it will be best to allow that to go over to the March number. I will send you a copy of the October number of the Fort Wayne Journal of the Medical Sciences, in which I have a short editorial, but there are some errors in it, as I was absent when the "proof" came and it was not corrected as it should have been. If you can use it or any part of it in the "Courier" you may do so.

I am much pleased with the proposition on "Profound Agreement" I will give this some thought and consideration. "Toxicology" is rather broad, in its meaning.

Fort Wayne, Ind.,

.....189.....

without some qualification as it refers to all
persons but I am at present at a loss to know
what term to employ. I will write you again on
this subject. I taught Physiology and Hygiene in the
old Methodist College of this City for fourteen years and
I always spent a great deal of time on "Alcohol
its nature and effects" also on all narcotics, such
as Opium, its salts, and tobacco. I trust that you
will succeed in getting the endowment, and have
this department organized at an early day.
I might say that this legitimately belongs to the
Medical department. but as it is a specialty
it is proper to have it organized as a
separate department.
I thank you for the suggestion of stamping the
"appeals" I think it a good plan
I am quite busy this morning. We are all
well

Yours. Bro.
C. B. Stemen
