

Feb. 16, 1900

The Taber Prang Co.,
Springfield, Mass.,

Dear Sirs: We have heard nothing from you concerning the time when we may expect the certificates. I understood that we were to receive 1000 on the slightly blurred paper showed me by Mr. Audsley. We must know at once when we are to receive at least some of this order.

We have just received a much finer engraving of the building, showing also its side and depth, and if it is not too late, we would like to have another cut made, at our expense, of course, and put in as many of the certificates as possible. Please write to me to 150 Fifth avenue, New York, at once concerning this matter.

Yours truly,
