Oct. 18th, 1900.

Dr. Wilbur L. Davidson,  
Cuyahoga Falls, Ohio.

My dear Dr. Davidson:—

Your letter of October 16th gives me great delight because it proves what I have believed right along, that with proper effort the Leagues can be enthused over this matter. You must remember that we did not get out matter to them until the time of the spring conferences, when every church was raking up every dollar they could to meet the conference collections to square things up for the year, and very naturally ministers and the leaders of the Leagues put the University matter aside. We are now ready, at the beginning of the winter to carry on an aggressive campaign, and while I do not expect to have an active hand in it yet I do want to see you push matters for all they are worth. I will certainly send you some matter for the "Courier" and will try and get you some items by next week. Let me know when you expect to get the number out.

As to the balance due me, I do not need to say a word to you about that as I know you will send it when you have it and I do not want to bother you with the matter. I am very glad you are finally settled with the Prang Co.— and that you have at least a few dollars in hand to meet Adam's bill which I suppose will be about sixteen hundred (\$1600.00) to eighteen hundred (\$1800.00) dollars.

If I can get a desk here for anywhere near the price I paid for the desk I have in Washington, I will let you keep that desk at \$11.75.

#2

Siegel - Cooper say that they will not have any more desks at that price and the least that I can buy one is for eighteen dollars (\$18.00). However you can leave that matter rest for a few days.

Yours truly,

*Tali Eesen Morgan*
